1. Identification

Product identifier  
trans-4-DECEN-1-AL

Other means of identification

- BRI Product Code: 382
- CAS number: 65405-70-1
- FEMA number: 3264
- Synonyms: (* Alt. CAS #) CAS: 30390-50-2; 4-Decenal * 4-Decenal, (4E)- * Dec-4-enal * e-4-Decenal * FEMA CAS: 30390-50-2

Recommended use
flavors and fragrances

Recommended restrictions
For Manufacturing Use Only
Not for use in Tobacco or Nicotine delivery device applications and/or products.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

- Company name: Bedoukian Research
- Address: 6 Commerce Drive
- Telephone: 1-203-830-4000
- Website: www.bedoukian.com
- E-mail: customerservice@bedoukian.com
- Contact person: Joseph Bania
- Emergency phone number: Chemtrec (North America) 1-800-424-9300
- Chemtrec (International) 1-703-527-3887

2. Hazard(s) identification

Physical hazards
Flammable liquids  
Category 4

Health hazards
Not classified.

Environmental hazards
Hazardous to the aquatic environment, acute hazard  
Category 2
Hazardous to the aquatic environment, long-term hazard  
Category 3

OSHA defined hazards
Not classified.

Label elements

- Hazard symbol: None.
- Signal word: Warning
- Hazard statement: Combustible liquid. Toxic to aquatic life. Harmful to aquatic life with long lasting effects.

Precautionary statement

- Prevention: Keep away from flames and hot surfaces-No smoking. Avoid release to the environment. Wear protective gloves/eye protection/face protection.
- Response: In case of fire: Use appropriate media to extinguish.
- Storage: Store in a well-ventilated place. Keep cool.
- Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)
None known.

Supplemental information
None.

3. Composition/information on ingredients

Substances
**Stabilizers**

<table>

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

**Composition comments**

**4. First-aid measures**

**Inhalation**
Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact**
Wash off with soap and water. Get medical attention if irritation develops and persists.

**Eye contact**
Rinse with water. Get medical attention if irritation develops and persists.

**Ingestion**
Rinse mouth. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**
Direct contact with eyes may cause temporary irritation.

**Indication of immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically.

**General information**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

**5. Fire-fighting measures**

**Suitable extinguishing media**
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

**Unsuitable extinguishing media**
Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**
The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures. During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters**
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/instructions**
In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

**Specific methods**
Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**
Combustible liquid.

**6. Accidental release measures**

**Personal precautions, protective equipment and emergency procedures**
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

**Methods and materials for containment and cleaning up**
Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

**Environmental precautions**
Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage

Precautions for safe handling
Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Keep away from heat, sparks and open flame. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS). Recommended Packaging: Glass, Aluminum or Phenolic Lined Steel. Store tightly sealed under inert gas in a cool, well-ventilated area.

8. Exposure controls/personal protection

Occupational exposure limits
This substance has no PEL, TLV, or other recommended exposure limit.

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment
- Eye/face protection: Wear safety glasses with side shields (or goggles).
- Skin protection
  - Hand protection: Wear appropriate chemical resistant gloves.
  - Other: Wear suitable protective clothing.
- Respiratory protection: If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.
- Thermal hazards: Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations
When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance
- Physical state: Liquid.
- Color: Pale yellow
- Odor: Fresh, fruity, citrus odor.
- Odor threshold: Not available.
- pH: Not available.
- Melting point/freezing point: Not available.
- Flash point: 185 °F (85 °C) Closed Cup
- Evaporation rate: Not available.
- Flammability (solid, gas): Not applicable.
- Upper/lower flammability or explosive limits
  - Flammability limit - lower (%): Not available.
  - Flammability limit - upper (%): Not available.
  - Explosive limit - lower (%): Not available.
  - Explosive limit - upper (%): Not available.
- Vapor pressure: 0.08 mmHg at 20°C; US EPA. 2014. Estimation Programs Interface Suite™ for Microsoft® Windows, v 4.11. US EPA, Washington, DC, USA.
- Vapor density: 5.3 Relative to air; air = 1
- Relative density: Not available.
Solubility(ies)
Solubility (water) Not available.
Auto-ignition temperature Not available.
Decomposition temperature Not available.
Viscosity Not available.
Other information
Density 0.835 - 0.845 g/cm3
Explosive properties Not explosive.
Flammability class Combustible IIIA estimated
Molecular formula C10H18O
Molecular weight 154.24
Oxidizing properties Not oxidizing.
Specific gravity 0.835 - 0.845 at 25°C

10. Stability and reactivity
Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability Material is stable under normal conditions.
Possibility of hazardous reactions Hazardous polymerization does not occur.
Conditions to avoid Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials Strong oxidizing agents.
Hazardous decomposition products No hazardous decomposition products are known.

11. Toxicological information
Toxicological information trans-4-DECEN-1-AL 3 %, Photoallergy test. Induction at 10%, challenge at 3%
Vehicle Ethanol.
Result: Not photoallergenic.
Species: Guinea pig
Organ: Skin
3 %, Phototoxicity test. Vehicle Ethanol with 2% DMSO added.
Result: Not phototoxic.
Species: Guinea pig
Organ: Skin
500 - 2000 mg/kg OECD 474, In vivo Mouse Micronucleus Test.
Vehicle Corn oil. Dose orally administered.
Result: Not mutagenic.
Species: Mouse
Notes: RIFM

Information on likely routes of exposure
Inhalation No adverse effects due to inhalation are expected.
Skin contact No adverse effects due to skin contact are expected.
Eye contact Direct contact with eyes may cause temporary irritation.
Ingestion Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics Direct contact with eyes may cause temporary irritation.

Information on toxicological effects
Acute toxicity
trans-4-DECEN-1-AL (CAS 65405-70-1)

**Acute**

**Dermal**
- **Liquid**
  - LD50: Guinea pig > 5000 mg/kg
  - Result for similar materials cis-6-Nonenal and cis-4-Decenal.

**Oral**
- **Liquid**
  - LD50: Rat > 7000 mg/kg

*Estimates for product may be based on additional component data not shown.*

**Skin corrosion/irritation**
- Prolonged skin contact may cause temporary irritation.

- **Irritation Corrosion - Skin**
  - trans-4-DECEN-1-AL
  - 2 % Patch test, Vehicle Dimethyl phthalate.
  - Result: Not irritating.
  - Species: Human
  - Organ: Skin
  - 3 - 100 % Open epicutaneous test, Concentrations 3%, 10%, 30%, 100% tested. Irritation noted at all levels. 3% very slight, 10% moderate, 30% and 100% very strong. Vehicle Acetone.
  - Result: Irritation noted.
  - Species: Guinea pig
  - Organ: Skin

- **Serious eye damage/eye irritation**
  - Direct contact with eyes may cause temporary irritation.

- **Irritation Corrosion - Eye**
  - trans-4-DECEN-1-AL
  - 0.5 %, Blepharospasm in 6/6 animals after instillation of material. Slight redness and increased discharge up to 24 hr observation. All cleared after 72 hours.
  - Result: Irritation noted.
  - Species: Rabbit
  - Organ: Eye
  - Observation Period: 7 days
  - Severity: mild

**Respiratory or skin sensitization**

- **Respiratory sensitization**
  - Not a respiratory sensitizer.

- **Skin sensitization**
  - This product is not expected to cause skin sensitization.

- **Skin sensitization**
  - trans-4-DECEN-1-AL
  - 2 % Patch test, Vehicle Dimethyl phthalate.
  - Result: Not sensitizing.
  - Species: Human
  - Organ: Skin
  - 3 - 100 % Open epicutaneous test, Concentrations 3%, 10%, 30%, 100% tested. Vehicle Acetone.
  - Result: Not sensitizing.
  - Species: Guinea pig
  - Organ: Skin

**Germ cell mutagenicity**
- No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

- **Germ cell mutagenicity: Ames test**
  - trans-4-DECEN-1-AL
  - < 1000 µg/plate Preincubation, Strains TA 1535, TA 1537, TA 98, TA 100, and TA 102 with and without metabolic activation. Vehicle DMSO.
  - Result: Not mutagenic.
  - Species: Salmonella typhimurium
  - < 5000 µg/plate Plate incorporation, Strains TA 1535, TA 1537, TA 98, TA 100, and TA 102 with and without metabolic activation. Vehicle DMSO.
  - Result: Not mutagenic.
  - Species: Salmonella typhimurium
Carcinogenicity
Not classifiable as to carcinogenicity to humans.

IARC Monographs. Overall Evaluation of Carcinogenicity
Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not regulated.

US. National Toxicology Program (NTP) Report on Carcinogens
Not listed.

Reproductive toxicity
This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure
Not classified.

Specific target organ toxicity - repeated exposure
Not classified.

Aspiration hazard
Not an aspiration hazard.

12. Ecological information

Ecotoxicity
Toxic to aquatic life. Harmful to aquatic life with long lasting effects.

Persistence and degradability
No data is available on the degradability of this product.

Bioaccumulative potential
Partition coefficient n-octanol / water (log Kow) for trans-4-DECEN-1-AL

Mobility in soil
No data available.

Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations
Dispose in accordance with all applicable regulations.

Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information

DOT
Not regulated as dangerous goods.

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not established.

15. Regulatory information

US federal regulations
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
Not regulated.
CERCLA Hazardous Substance List (40 CFR 302.4)  
Not listed.

SARA 304 Emergency release notification  
Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)  
Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)  

Hazard categories  
Immediate Hazard - No  
Delayed Hazard - No  
Fire Hazard - Yes  
Pressure Hazard - No  
Reactivity Hazard - No

SARA 302 Extremely hazardous substance  
Not listed.

SARA 311/312 Hazardous chemical  
Yes

SARA 313 (TRI reporting)  
Not regulated.

Other federal regulations  

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List  
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)  
Not regulated.

Safe Drinking Water Act (SDWA)  
Not regulated.

US state regulations  
California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.
